LOADER UNITS

14-2

Billet Loader into Broaching Machine

FEATURES:

Loaders are typically utilized to load production parts into a process machine, machining line, or an assembly machine.

Parts are typically metered and pushed into the machine being loaded.

Utilized from Opt. 10 to final assembly.

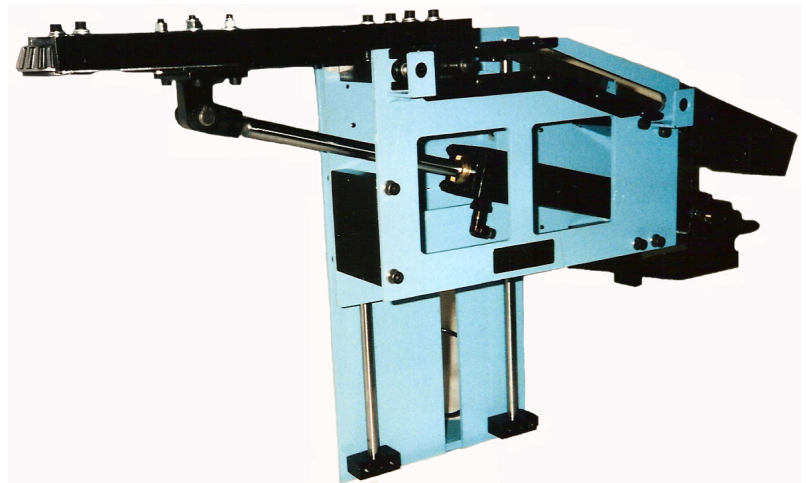

AVAILABLE OPTIONS:

Custom designed to suit the application.

Turnkey controls or simple junction box for your control logic.

SYSTEM BENEFITS:

- Aids hazardous ergonomic considerations
- Allows increased production capacity
- Cuts part production labor cost
- Economical automation
- Maintains part quality
- Reduces costly manual labor

Tapered Bearing Loader into Press Station
