## VIBRATORY LIVE FEED UNITS

18-5

Live Feed Piggy Back Units Shown

### FEATURES:

- Low profile Heavy Duty construction.
- Vibratory In-Line drive packages.
- Various tooling as required suiting application requirements.
- Open rail construction allows debris removal.
- Utilized for a various part applications.
- Vibratory drive controller require 120 VAC 15 AMP operation.

### AVAILABLE OPTIONS:

- Low Profile drive units available in 24", 36" and 48" models.
- Incorporated with other various equipment for a feeding system.
- Open rail models or part orientation containment available.
- Noise enclosure packages to meet your sound level requirements.

### SYSTEM BENEFITS:

- Aids hazardous ergonomic considerations
- Allows increased production capacity
- Cuts part production labor cost
- Economical automation
- Maintains part quality
- Reduces costly manual labor
- Reduces scrapped parts
- Reduced floor space requirements
- Storage provides continued through put operation
